

OIL ONLY SORBENT MEDIA (REPELS WATER)

Pads ★ Drum Toppers ★ Rolls ★ Railroad Rugs ★ Tubes ★ Pillows ★ Hand Towels ★ Fluff & Granular ★ Wraps

AMBF's strong oil-only hydrophobic products are proven to absorb hydro carbon petroleum based liquids, making them an effective tool for use in drilling fields, industrial plants, automotive repair, aviation maintenance, emergency first responders and marine applications. They can be used during emergency containment situations to absorb spills, leaks or drips for fast, easy clean-up. AMBF's sorbents come in a variety of styles and sizes, or can be easily customized to suit your individual applications.

AMBF helps you stay in compliance with standards under CFR 29, 40 & 49. AMBF's Products also help you meet requirements for waterways EPA 122.26 for protecting storm water. AMBF's oil sorbents are designed to float on the water surface and may hold up to 20 times their own weight of oil based liquids for excellent absorbency.

Quick Use Guide:

★ Oil Field ★ Industrial Facilities ★ Marina ★ Automotive ★ Aviation ★ Railroad ★ Workshop ★ First Responder

All styles are produced to quickly and effectively absorb spills of oils

PADS & DRUM TOPPER

- Melt Blown fibrous Polypropylene Sheets are designed to **wick oil based** hydro carbon liquids fast to keep your environment clean while **repelling water**
- **Standard and customized sheet sizes** & weights available for your application
- **Flexible and multipurpose** product which can be used on the water surface or on land for effective clean-up
- Saturation Point is easily identified when **White Pads** have fully absorbed
- Drum Topper fits standard 55 gallon container

ROLLS & RAILROAD RUGS

- Choose from our **standard size rolls or customize** your roll width and length
- With our **in-house slitting and perforation**, AMBF can produce any style roll
- Rolls are put on a standard size **3" core** for simple ease of use
- Melt Blown fibrous Polypropylene Pads are designed to wick oil based hydro carbon liquids fast to keep your environment clean while repelling water. Ideal for absorption coverage in large areas
- Saturation Point is easily identified when **White Pads** have fully absorbed

TUBES

- Ideal for containing leaks around machinery, shop equipment requiring maintenance
- **Quick response** to unexpected oil based liquid spills
- Suitable for **containing large spills** in bodies of water
- Repels water while wicking hydro carbons
- **Link multiple tubes** together to isolate clean-up area

PILLOWS

- Pillows will collect **oil based liquids**
- Contain your **leaky spout and dispensers** with an Oil- Only Absorption Pillow
- Helps keep your work environment clean **in tight spaces**
- **Ultra sonic welded seams** to provide stronger absorption containment

HAND TOWELS

- **Conveniently packaged** — tear off only what you need
- Wipe down parts and pieces during routine **maintenance of machinery**
- Designed to absorb small spills and **keep work area clean**
- **Low Lint** towels clean hands and parts effectively

FLUFF & GRANULAR

- Fluff & Granular are both **hydrophobic** and will float on water.
- Fluff & Granular polypropylene used to **throw into tight places** or areas hard to reach needing maximum absorption
- Fluff stringy open fibers are **ideal for surface water** or can be used on hard surface areas
- Granular polypropylene can be used to **sprinkle on trouble spots** to absorb oil based hydro carbon

WRAPS

- Used for covering **troubled well head leakage** or point of use machinery leaks
- **Reduces volume** of leak into the environment and repels water
- Perforated to **your specific size**
- Our **hook and loop strap** provides assistance for placement and containment
