

Heavy Duty Dewatering/ Light Slurry Agitator Pumps

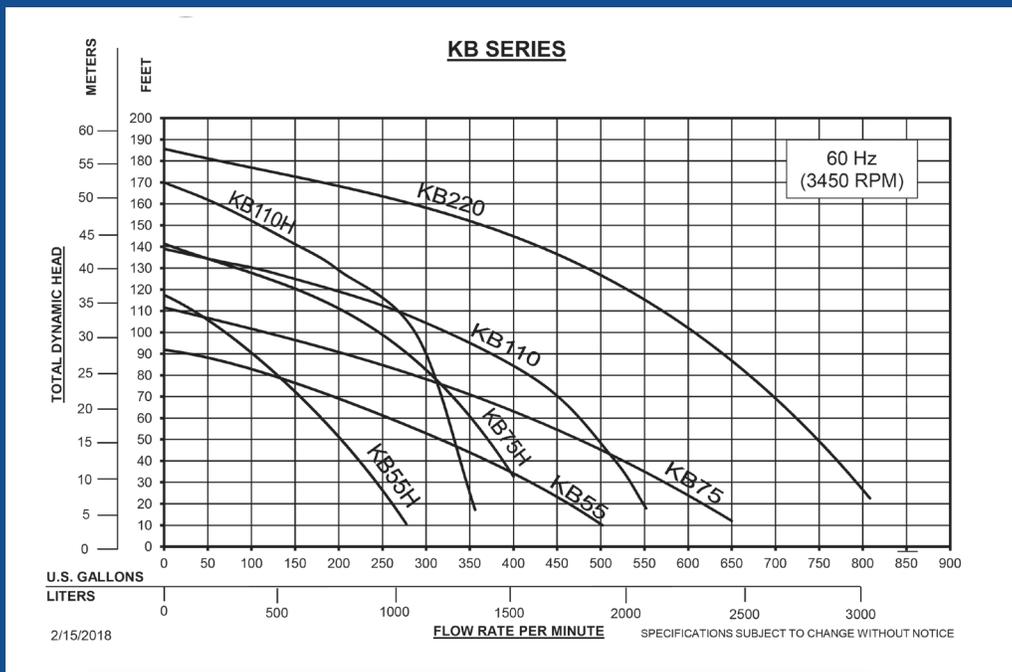

KB Series

KB Series Submersible Pumps

Maximize your production and uptime with BJM's KB Series heavy duty dewatering/light slurry pumps. Able to handle tough silt, sand or coal fines, these pumps are a great solution for dewatering settling basins, retention ponds, wash sumps, and more. For more information, visit www.flowsolutions.com or call 860-399-5937.

Key Benefits of the KB Series

- Abrasive resistant hi-chrome iron impeller, wear plate, and agitator suitable for light slurry dewatering
- Top discharge design:
 - Pumps down lower than 11"
 - Avoids overheating
 - Provides better durability and portability
 - Slim pump design to fit into tighter spaces
- Hard metal agitator design to remove settled solids
- 2-pole motor designs for higher head hydraulics
- Class H motor insulation with amperage (FLA) and temperature overload protection
- Oil-lubricated, double mechanical seals and heavy duty lip seal for additional protection
