VERTICAL LINESHAFT & SUBMERSIBLE TURBINES

DELIVER MORE. OFFER FRANKLIN.

YOUR PARTNER FOR WATER SYSTEMS

ENGINEERED DRIVES

An innovative line of starter and drive panels designed specifically for ease-of-use in water pumping applications.

LEGENDARY MOTORS

Unrivalled performance powered by our legendary submersible motors, including the MagForce™ High Efficiency Motor.

HIGH-PERFORMANCE PUMPS

Deliver water for any sized job with our proven portfolio of Submersible Turbines and new Lineshaft Turbines.

VERTICAL LINESHAFT & SUBMERSIBLE TURBINE PUMPS

With flows up to 40,000 gallons per minute and heads up to 2,500 feet, Franklin Electric offers a wide selection of strapped, cast iron, and cast stainless submersible turbines, along with an extensive offering of lineshaft turbines that help you cover almost any pumping application.

Pair these products with our legendary motors and engineered drives to maximize performance beyond the pump. All of this is backed by the best support team in the industry, making sure our business isn't what slows yours down.

DELIVER MORE. OFFER FRANKLIN.

THE RIGHT PUMP FOR THE JOB

Review our rugged submersible pumps specifically designed to offer an ideal solution for contractor's performance requirements. Various options in sizing, design and material constructions can be specified to meet application needs.
